# CONCEPT...

OUR DESIGNS TAKE INTO CONSIDERATION THE CHANGES IN A WOMAN'S BODY FROM EARLY PREGNANCY THROUGH NURSING.

THE SIDE STITCHES CONCEAL THE LESS-FAVORABLE TUMMY AND BACK AREAS AND OUR FASHIONABLE DESIGN ALLOWS A WOMAN TO CONTINUE WITH HER DAILY ACTIVITIES WITHOUT ANYONE SUSPECTING SHE IS WEARING A NURSING SHIRT.

OUR NURSING COLLECTION ENABLES THE MOTHER TO BREASTFEED WITHOUT EXPOSING HERSELF, KEEPING MOTHER-BABY EYE CONTACT WHILE STILL LOOKING STYLISH.

A LITTLE DUCK ILLUSTRATION IS SITUATED IN THE INSIDE OF THE GARMENT AND IS REVEALED ONLY WHILE BREASTFEEDING, GIVING THE BABY SOMETHING TO LOOK AT AND PROVIDES THE MOTHER WITH A LITTLE REMINDER WHERE SHE LAST FED FROM.

## how it works....

Peek-a-boo is a basic shirt that complements the wardrobe and does not stress the fact that a woman is nursing.

This shirt design acknowledges that feeding a baby is a discreet process that sometimes needs to be done publicly, and enables the mother to do so without exposing herself, keeping the mother-baby eye contact, while still looking fashionable.
